

Please fill-out this questionnaire, send it to the GCE Group office nearest to you, and we will provide you with the energy survey cost estimate for all energy systems within your enterprise.

1 General information about the enterprise:

- Name of the enterprise and main activity type:
- Total number of personnel, including engineering and technical staff:
- Total number of production shops:
- Types and volume of raw material processed:
- Enterprise's main product (name and production volume):
- Additional products:

2 Consumption of fuel & energy resources in 2009:

Electric power, thousands of KWt/hr	Thermal energy, GCal	Boiler & Furnace fuel, EFT

3 Data about enterprise's power supply system:

- number of power transformers (units): – up to 10, – 10 to 50, – over 50
 number of electric motors 10 (6) kV(units): – up to 10, – 10 to 50, – over 50
 number of electric motors (units) 0,4 kV: – up to 100, – 100 to 500, – over 500;
 number / total capacity of electric furnaces: (units)/..... (kWt)

4 Data about thermal supply system:

- number of boiler shops / boilers at the enterprise, units: /
 boiler shops capacity: by heating water..... GCal/hr, by steam..... t/hr
 length of thermal (steam) networks, in km:

5 Data about fuel consuming devices:

- number of heating furnaces, units
 number of other process fuel consuming devices

6 Data about pressurized air systems

- number of compressors and their total electric capacity: units/..... kWt
 number of shops consuming pressurized air:
 total length of air network, km:

7 Data about automated fuel and energy consumption monitoring systems

Resource monitored	Does monitoring system exist? yes /no	Data archival period
Electric energy		
Fuel		
Thermal energy		
Product output		

if the enterprise does not have an automated fuel and energy consumption monitoring system, please describe how monitoring is being performed

8 General information about power plant

- Power plant type: – thermal, – diesel, – gas turbine,
 – gas engine generator – hydroelectric, – other type
 plant's electric capacity, MWt:

Thank you for the time you spent on completing the questionnaire!

Please, send the filled form to GCE Group offices (PR Department).
